Re: Wayne Reclamation and Recycling (WRR) Site
Columbia City, Indiana ("the Site")

Dear Sir/Madam:

The United States Environmental Protection Agency (U.S. EPA) has documented the release or threatened release of hazardous substances, pollutants and/or contaminants at the above referenced Site. A Remedial Investigation/ Feasibility Study (RI/FS) has been initiated at the Site pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. Section 9601 et seq., as amended by the Superfund Amendments and Reauthorization Act of 1986, Public Law 99-499 (CERCLA). The RI/FS is being prepared by a previously identified group of PRPs for the WRR Site pursuant to an Administrative Order by Consent (AOC).

Pursuant to its authority under Section 104(a) of CERCLA, U.S. EPA is issuing this general notice letter to notify you of potential liability which you may have incurred with respect to the Site, and to provide you with an opportunity to enter into negotiations to voluntarily undertake the completion of any future remedial actions. Since a RI/FS is currently on-going at the Site, special notice procedures pursuant to Section 122(e) of CERCLA are not being used at this time, but may be used in the future. Before initiating a remedial action at the facility, U.S. EPA may, in its discretion, determine that a moratorium period for formal negotiations as set forth in Section 122(e) would facilitate agreement and ~~expedite~~ remedial action. As noted below, completion of the RI/FS is anticipated for March 1990 at which time the Agency may issue a special notice letter to initiate the moratorium period for settlement negotiations.

The Remedial Investigation (RI) Report, which describes the findings on the nature and extent of contamination at the Site, was finalized in June 1989. The Feasibility Study (FS) Report, which evaluates various
